

**THE 20TH
LONG NIGHT
OF MUSEUMS
18.05.2024**

Your program

Ladies and Gentlemen,

The 20th anniversary edition of the Night of Museums awaits us. Some 312 institutions have declared their participation in this year's event, having prepared 336 attractions, most of them created specially for this night.

In front of the Youth Palace (Pałac Młodzieży), on the Świętokrzyska Street side, will be a city of Warsaw pavilion with an interactive installation – you will be able to print out your own collage of pictures and photos as a postcard. Tickets will be available for the observation deck of the Palace of Culture and Science. Special museum transport services will run from a stop on Emilii Plater Street.

Recently, the most popular walk has been across the new footbridge connecting the downtown area with the Praga district (or vice versa). After crossing the bridge, attractions await you at galleries and at the Praga Museum, as well as the exhibition about sauna culture located next to Targowa Creativity Centre.

You can also start a walk from the Ateneum Theatre, which is taking part in the event for the first time with an exhibition devoted to Gustaw Holoubek in its art deco interior.

Many institutions have prepared routes connected with the 80th anniversary of the Warsaw Uprising. The History Meeting House invites you to the Polish Telephone Joint-stock Company (PAST) building on Zielna Street, where you can visit the site of fierce insurgent fighting.

The Night of Museums shows that we live in a fascinating city full of active and cheerful people. It is a really special day as we show how exceptional Warsaw is and that getting to know it never ends.

See you on May 18!

Event details:

The main areas of Aleksandra Prusinowskas artistic activity are painting and artistic graphics. In her works, the artist likes to draw on patterns from pop culture, referencing movies, advertisements, and press photos, as well as comics, with their characteristic framing. The means of expression used by the artist are related to collage techniques and often resemble cutouts. Saturated, often almost vivid colours dominate her work, building the narrative of the images and graphics, and positioning colour as a source of energy, therefore essential for life.

Event details:

Michał Ignar describes his work as follows: I approach the human body like a painter or sculptor. I arrange and illuminate frames so that viewers often compare my photos to paintings or sculptures. Photographs of nude bodies are often surrounded by an aura of sensation or prudishness. I try to break this taboo. The human body, uncovered, can be art. And a photoshoot can have an emancipatory power when we lose our complexes. The human being is at the centre of my work. I like doing portraits the most, dance photographs, and nudes. This last category is what I present in this exhibition.

Practical information:

The 81 Degrees Gallery is located in an Art Nouveau tenement house at the corner of Targowa and Kłopotowskiego streets, near the Wileńska metro station, at the of a spiral staircase. There is no lift. Doorbell number 5.

On this unique night in Warsaw, we will take you on an incredible journey aboard the old, wooden skiff 'Dar Mazowsza.' The skiff will be moored at the Czerniakowski Port. You will find us amidst the lights and sounds of ancient music. And since the night is extraordinary – so is the journey – not in space, but in time. On the atmospherically illuminated deck, tales of the old city by the great river will emerge from the darkness, stories of raftsmen, and curiosities about treasures sunk in the Vistula. We will uncover the river's other life after sunset.

Practical information:

No prior reservation is required for the event, short night cruises on a smaller raft boat run as a shuttle service, subject to availability. The event is outdoors, on the river, so appropriate clothing for the weather is advised.

The exhibition of works by Berlin-based artist Ralf Ritter is dedicated to objects, everyday items that the artist inherited after the passing of two close individuals. A dishwasher, an automatic shoe polisher, or a pot, these are not mementos but mundane items that accompany us in life, remaining after we depart. Ritter translates images of objects onto canvas using a complex technique he developed combining painting, graphics, and photography. The exhibition will be held in a nearly century-old villa in Zalesie Górne near Warsaw.
